

Our IoT solutions

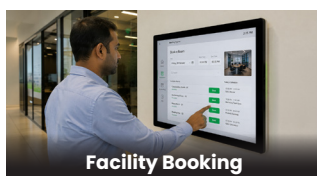

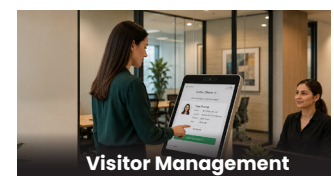

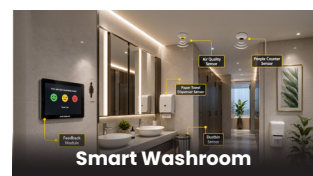

SMART BUILDING

SMART WORKSPACE

SMART FACILITIES

Your trusted digital Transformation Partner

AastroTech, delivers intelligent IoT solutions that connect people, processes, devices and data to create smarter, safer and more efficient environments.

With **20+ years** of technology and systems integration experience and **50+ projects** delivered, we help organizations transform buildings and workplaces through connected technologies, analytics and automation.

Make your building smarter

Connect • Analyze • Automate • Optimize

REDUCE ENERGY CONSUMPTION

Monitor and optimize energy usage.

IMPROVE OPERATIONAL EFFICIENCY

Automate routine processes and optimize resources.

ENHANCE USER EXPERIENCE

Create connected, convenient and responsive environments.

IMPROVE SPACE UTILIZATION

Understand occupancy and make better use of every space.

ENABLE PREDICTIVE MAINTENANCE

Identify potential issues before they impact operations.

CREATE DATA-DRIVEN BUILDINGS

Turn real-time data into actionable insights.

The smart building Development journey

1 Passive

Gain visibility through sensors and analytics.

- Air quality analytics
- Space Utilization
- Energy analytics
- Occupancy analytics
- Environmental Analytics

2 Active

Use data to actively manage spaces and facilities.

- Space management
- Facility Reporting
- Smart Parking
- Desk & meeting Room booking
- Visitor Management

3 Interactive

Create intelligent environments that respond to people and operational needs.

- BMS Automation
- Smart Lockers
- HVAC Control
- Touchless elevator control
- Mobile Access

FROM DEVICES TO INTELLIGENT EXPERIENCES

Machine-Centric

Human-Centric
